Trinity College, We return thanks for the new catalogue of this institution just received, from which we see that the past year has been a very prosperous one. There were sixteen graduated, and the total of matriculates was one hundred and sixty-five. Among the Trustees we notice such names as Hon. J. M. Leach, Col. Walter L. Steele, W. Barringer, Dr. J. B. Beckwith, Henry Lilly, Col. J. W. Alspaugh, Hon. Kemp P. Battle, Major Seaton Gales, Maj. W. M. Robbins, and others, men who in other days were identified with the University of North Carolina. Whilst upon the subject of Colleges, it is curious, perhaps instructive, certainly suggestive, to survey the College and High School prorapidly going to decay. The University gost not less than \$100,000, and is rapidly going to nothing. A debt of from \$30,000 to \$60,000 hangs over it, and no speedy resuscitation is probable. We see the Trustees propose, and are the value of \$20,000, and everything about the College shows signs of a full life. How this has been and is done, we do not see. No one seems to be making any special effort. Divorced By Death_A Farmer's Wife Gored to Death by a Cow while he is Counselling for a Divorce.

The people residing in the vicinity of St. Francis Station, a few miles below Bay View, have for the past few days been agitated by what many of them deem a remarkable dispensation of Providence. A farmer named Niessen, an old resident of that section, had until quite recently lived in the enjoyment of a happy home, gladdened with the presence of a loving wife, and a family of eight interesting children. But the bright halo of his happiness was soon to be overshadowed by the clouds of but if he had got an unabridged business a gathering storm.

Trifling circumstances led him to suspect his wife of an evîl design to rid herself of his presence. Several trivial incidents stengthened the convictions of a suspicious nature, and step by step an unkind fate led the wife into a position of seeming enmity to the partner of her life. While kneading a batch of dough for bread, two pins disengaged themselves from her dress and were not noticed until breakfast on Saturday morning, when the husband found them in his slice of bread. Blinded with suspicion, he immediately accused her of an attempt upon his life .-She indignantly denied the imputation. and wept to see her husband leave the threshold of the once happy home for the avowed purpose of instituting proceedings for a divorce.

While the husband was wending his way to the nunnery at St. Francis to seek Livice as to his course under the untor unate circumstances, the wife went socrowingly out into the meadow to perform her usual task of milking the cows. While so employed one of the cows, a vicious anima, set upon and gored her so terribly that death ensued shortly after she was carried into the house. A neighbor witnessed the horrible occurrence, and having learned of Mr. Niessin's mission to St. Francis, hitched up his team and hurried after bim. He was not long in reach ng him, and soon told the tale of how a crnet fate had relieved him of the trials of a di-
